

An introduction to the SIMS Teacher App

Registration made simple

The SIMS Teacher app makes it effortless for teachers to record attendance data for every pupil. Quickly record present, absent, and late marks or school defined codes with a few simple taps so that you can get back to your lesson. If you need to mark a pupil late, the app automatically indicates the current number of minutes past the class start time.

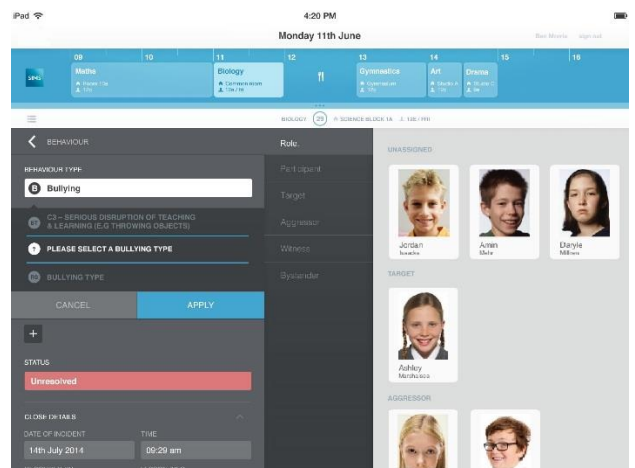

See an overview of every pupil

Contact information and conduct can be viewed with each pupil profile, along with relevant medical and dietary information. A teacher can see at a glance if the pupil has been awarded behavior or achievement points in a previous class that day and over the last 2 weeks. All this information is also available to view offline, for example on a school trip without internet.

Marksheets, achievement and behavior

By tapping a pupil's picture, a teacher will be able to award achievement or behavior points. The app records the correct number of points for each type. Teachers will be able to quickly and easily access assessment marksheets and then enter grades, comments and marks.

Check your timetable

The SIMS Teacher app allows teachers to check their timetable wherever they are for today, this week or the whole academic year. You can also view the timetable for a pupil to see which lesson

	Monday 18 Mar	Tuesday 19 Mar	Wednesday 20 Mar	Thursday 21 Mar	Friday 22 Mar
09	Mathematics	Mathematics	Mathematics	Mathematics	Mathematics
10	Mathematics	Mathematics	Mathematics	Mathematics	Mathematics
11	Mathematics	Mathematics	Mathematics	Mathematics	Mathematics

Easily record assessment judgements

Record formative and summative assessment judgements for the Programme of Study with ease. This simple process will enable teachers to effortlessly record achievement as it is observed. On-screen analysis provides instant feedback on achievement and raising awareness.

they should be in, view other teachers' timetables, and even take registration for another class.
