# Preparing for the Setup

Each Summer Term a number of steps must be completed to successfully set up the next Academic Year on Arbor. To make this as simple and hassle-free as possible for you, we have created an easy-to-follow process to ensure you set up everything you need to, and in the right way.

We recommend doing this setup before you break up for the summer holidays. There's no need to wait until later in the summer, as the changes you make won't take effect until the new school year starts in September.

Before you start, gather the information you need using the **New School Year Setup Preparation Checklist**, available on the Help Centre [here](#).

## Do we have to complete all the steps?

Some steps are optional depending on your Arbor package and requirements. If you don't use a certain area (such as if you don't use houses, you can mark the step as **Complete**.

### Houses

**Setup 2022/2023**

1. Copy houses and house enrolments 4 out of 4 houses copied ▶

**Review**

Houses (2022/2023) + Add

**Instructions**

Houses setup steps are optional. Once you have reviewed Houses, click Mark as complete to complete setup or click Skip for now to review later.

✓ Mark as complete

↩ Skip for now

Steps in bold are required for all schools:

- 1. Enter all your school dates for the year**
- 2. Off-Roll any Leavers**
- 3. Promote your current Year Groups and Registration Forms**
4. Copy over any Custom Groups you have set up that you may want to use again
5. Copy over Houses and House Enrollments into the new academic year
- 6. Enter the times for your registers to create your timetable**
7. Copy over meals, meal sittings and meal choices for students

8. Copy over any Interventions you will continue to run
9. Set up other things you'll need next year, like Assessments and Behaviour

Finally, review your New School Year Setup. You're now ready for next year!

## Can we come back to a step later?

If you need to come back to a step later to add more information you can! Just click **Skip for now** and put a reminder into your diary to come back to it later. When you come back, click **Resume progress**.

## How can I get started?

The area for setting up your new school year can be found by going to **School > School Structure > School Year Setup**. This area of Arbor is locked until the **1st May**.

### School Year Setup

Steps to prepare for the new academic year are locked until the Academic Calendar is [filled in and marked as complete](#).

1. Academic Calendar <span style="color: red; font-weight: bold;">Incomplete</span>

**Please Note:** For now, only the basic details (start date, end date, name) of the 2021/2022 academic year can be set. The rest of the school year setup (like setting up the academic calendar, holidays, student groups etc.) will be accessible from **01 May 2021**, 4 months prior to the beginning of 2021/2022 academic year.

Once the 1st May has passed, the School Year Setup area will be open.

This Overview page lets you view your progress. You can jump in and out of the New School Year Setup so you don't need to do everything in one sitting! Your current step will be highlighted in red as 'Incomplete'.

Only when certain steps have been completed can the next steps be unlocked.

### Can we move students up early?

At your school, students might move into next year's subjects, lessons and timetable in June or July in the current academic year for a few weeks before the summer holidays. You should not use the New School Year Setup process to promote students early. Instead, please follow these instructions: [Move students up to start the next academic year early](#)

# Step 1 - Create your Year

Go to **School > School Structure > School Year Setup**. Click on the first step to finalise your Academic Calendar for the next year.

## Add the intake season

If you've already been using Arbor to [manage your applicants](#) for September's cohort, you can skip to the next step.

If you haven't been using Arbor to manage applicants, you'll need to add the next academic year and create an intake season. Do this by following [these instructions](#).

The next step is to set up your academic calendar (or check it has been set up correctly if it has already been created. Click the option for **1. Academic Calendar**.

You can then complete the setup of your Academic calendar. This includes three sections to work on:

1. creating the academic year
2. setting up terms
3. setting up holidays

**Make sure the academic year dates also cover the summer holidays, which are considered part of the academic year.**

Below is a list of days in the Academic Calendar which are currently unaccounted for.

Add Terms and Holidays to ensure all days are accounted for. Once this is done, you'll be able to review and mark the Academic Calendar as complete.

01 Sep 2021 - 31 Aug 2022

In the Terms section, add all the dates you are scheduled to run courses and classes for. Click **+Add** to add a new term.

**Top Tip: term dates should span the full term.** Do not set up 6 half terms, because this will cause an error message when you try to add half-term holidays. Half Term holiday can be added within the Holidays section instead, shown below.

### Add Term

You can fill these gaps by adding in all your holidays (Half terms, Christmas and Easter break etc) in the **Holiday** section. **Ensure you include all of your holiday dates to ensure there are no attendance registers created on these dates.**

Add in all your half terms, vacation dates and public holidays. Holidays to be set up in the UK include Christmas, Easter, and summer breaks, mid-term holidays, any inset or training days, any public holidays or religious days.

**Top Tip: You do not have to include weekends.**

Click **+Add** to add a new holiday.

### Add Academic Holiday

Holiday name	Early May Bank Holiday
Holiday type*	Public Holiday
Start date*	2nd May 2022
End date*	2nd May 2022

You should only use the Holiday Type of **Half-Term** for the actual half-term breaks (October, February and May). This is to ensure you can use the **Half-Termly assessment period** for assessments, among other things.

### Add Academic Holiday

Holiday name	Autumn half term
Holiday type*	Half-Term
Start date*	25th Oct 2021
End date*	29th Oct 2021

If you have a remaining gap at the start of the academic year (due to starting the calendar as advised on 1st September), you can fill this with a holiday type of Vacation, as it is the final part of the summer vacation.

## Check you've set up your calendar correctly

Go to **School > School Structure > School Year Setup > 1. Academic Calendar**. In the example below, you can see that the Autumn term is set to end on the 17th December, but because the Christmas break holiday is set to start on the 17th December, this overrides the term dates. There will be no registers on the 17th of December.

Terms (2021/2022)		+ Add
Autumn	06 Sep 2021 - 17 Dec 2021	▶
Spring	04 Jan 2022 - 01 Apr 2022	▶
Summer	19 Apr 2022 - 27 Jul 2022	▶

Holidays (2021/2022)		+ Add
Summer	01 Sep 2021 - 03 Sep 2021	Vacation ▶
Autumn half term	25 Oct 2021 - 29 Oct 2021	Half-Term ▶
Christmas	17 Dec 2021 - 03 Jan 2022	Vacation ▶

To fix this, make sure that your vacations do not overlap with your term dates.

To do this, click on the date you would like to amend. In the example, I need to change the start date for Christmas Break to reflect the first date there should be no registers

for. The holiday should be scheduled to start on the 20th (Arbor automatically discounts weekends).

## Step 2 - Off-Roll Leavers

When you return to the New School Year Overview, you can see that the **Academic Calendar** section has been marked as **Complete** and other sections have now become available. The next step is to choose when your cohort of leaving students will be unenrolled.

3. Year Groups & Register	Available
4. Custom Groups	Available
5. Houses	Locked

**2. Off-Roll Leavers**

Off-Roll Leavers setup is available and needs to be marked as complete

The ability to Off-Roll Leavers helps save you time as you don't need to end students who are moving on individually via their Student Profile.

On this page, you'll also see in the Review section any students who have already left or have been given an end date within the current summer term, for example, if a year 3 student emigrated halfway through the year.

# Step 3 - Year Groups & Registration Forms

The next step is to set up your Year Groups and Registration forms for next year. You **must** complete this step.

**Please note that your promotions will apply based on what is chosen here, and will not be updated if you move students between registration forms. For example, if you promote 7A into 8A, then move a student into 7B, they'll still be promoted into 8A.**

Once you complete this step, Primary Guardians of your applicants will be able to log in to Parent Portal (if you have this module) to see and update details of their child once you send out their welcome email.

## Assign tutors to year groups and registration forms

Click the **Assign Tutors** field to add this information.

### Year Groups & Registration Forms

Setup 2021/2022	
1. Copy year groups and registration forms	15 out of 15 year groups copied, 28 out of 28 registration forms copied
2. Assign tutors to year groups and registration forms	Incomplete <span style="float: right;">▶</span>
3. Promote Year Group Students	0 out of 15 promoted <span style="float: right;">▶</span>

Choose the staff members you would like to assign as heads of year and registration forms. Arbor will pre-fill these fields based on your setup this year.

You can amend them if you wish by clicking the X button next to a name and adding a new name from the list (if you already have a [staff profile set up](#) for them).

When you have chosen your tutors, click the green **Assign Tutors** button.

**If you know there will be staffing changes but don't know who will be teaching each class**, you can assign the staff you know will be registration tutors and leave the forms with no tutor yet confirmed blank. You'll need to assign the tutors from the class page when you do know, [click here](#) to see how.

If you've left a registration form with no tutor, you'll see a message telling you that some year groups and forms do not have tutors assigned.

Make a note that this will need to be entered when you do have the information. [Click here](#) to see how.

2. Assign tutors to year groups and registration forms **8 out of 8 year group tutors assigned, 14 out of 15 registration form tutors assigned**

## Promote year group students

The next step is to Promote Year group Students by clicking this next field.

### Year Groups & Registration Forms

Setup 2021/2022	
1. Copy year groups and registration forms	15 out of 15 year groups copied, 28 out of 28 registration forms copied
2. Assign tutors to year groups and registration forms	12 out of 15 year group tutors assigned, 25 out of 28 registration form tutors assigned ▶
3. Promote Year Group Students	0 out of 15 promoted ▶
4. Enrol Applicants	There are no applicants for the new school year ▶

Choose which year groups to promote students into. For example, below you can see all Year 5 students will be moved into Year 6.

- If only some students are moving up (such as for nursery), promote the whole year. You can then move the students who are remaining in nursery back in the ‘tweak’ step later.
- If you’ll be splitting classes, promote the whole year. You can then move the students who will be in a different class in the ‘tweak’ step later.

You can also see that your highest year group is not automatically promoted. You can leave that field blank, then click **Promote**. When promoting your year groups in Arbor, you will always be at least one short.

## Enrol Applicants

In this step, you'll be able to enrol your Applicants into Registration Forms and year groups, as you've now set them up.

If you haven't yet added your applicants to Arbor and finished processing them, you won't be able to enrol them yet. When you click the **4. Enrol Applicants** option, you'll see the below message.

You can use one of our 3 easy methods (shown in [this article](#)) to add these students to your site, then make and accept offers for the applicants who you expect to start in September - take a look at [this article](#) for the process.

**Enrol Applicants**

You have 1 unprocessed application for which the applicants cannot yet be enrolled. To manage your applications please click 'Manage Applications' below. Note! Enrol applicants setup as part of School Year Setup will remain with a red 'Incomplete' status, until all unprocessed applications have been dealt with.

Once you've completed steps 2-5 in the article linked above, you'll be able to enrol your Applicants to be in the correct year groups and registration forms.

In **All Students > Applicants > Select intake season > Applicants**, make sure all the students you want to enrol have the Status of **Offer Accepted**. Tick the students who have accepted their offers.

1. Click the blue pencil icon to assign them to a year group.
2. Repeat, and assign them to a registration form.

When you assign applicants to a registration form, this will automatically also assign them to a year group, and potentially override a year group already input. If the registration form is linked to multiple year groups, it will choose the one that was set up first.

**We recommend checking that students have been assigned to the right year group before enrolling them. If they are not, you can repeat the Assign applicants to year group option to re-add them to the right year group.**

3. Finally click **Enrol students**. The students will then be enrolled in the Applicants section.

In the New School Year Setup the **4. Enrol Applicants** section should also now be marked as complete.

If any remaining applicants have accepted a place but haven't yet been enrolled, click the **4. Enrol Applicants** option within Step 2 of the New School Year Setup to enrol these applicants.

**Please note that this will not automatically enrol them into a Year Group and Registration form. If you haven't done this for these students, you should first follow the instructions shown above.**

7. Review and tweak registration form enrolments	Optional	▶

A slide-over will appear listing all registration forms alongside Arbor's suggestions for the year group they will be promoted to. Each current class will have a drop-down menu for you to select which class they will become the following academic year.

**We recommend you promote each Registration Form to the form that the majority of students will be in next year. It's easy to move individual students to different classes, if required, in the Review and tweak step.**

**Year 1 (2020/2021) to Year 2 (2021/2022)**

**Note!**  
It appears there are more registration forms in Year 2 (2021/2022) than there were in Year 1 (2020/2021). This, of course, makes it hard to promote the students into the exact right forms. But don't worry! Just enrol the students into any registration form - you will be able to move them around in a later review step.

## Enrolling attending students

If they will be attending your school next year, you will need to add them to a year group and registration form. Click the student's name to visit their profile and assign them to a year group and registration form.

First, change the academic year to next year.

In the 2020/2021 Enrolments section, click **+Add** to add their enrolment into the required year group etc.

The screenshot shows a sidebar on the left with sections for 'Arbor Example School Enrolment', '2021/2022 Enrolments', '2021/2022 Courses', and '2021/2022 Teaching Groups'. The main area displays the 'Enrol Student in Academic Year' form for student 'Dean Ellis' in the '2021/2022' academic year. The form includes dropdown menus for 'Enrolment mode\*' (Single Registration), 'Attendance pattern' (Only required for early years), 'Year group', 'Registration form', and 'House'. There are also input fields for 'Planned Learning Hours' and 'Planned EEP Hours', and a 'Notes' text area. At the bottom right, there are 'Cancel' and 'Enrol Student' buttons.

## Removing students who will not be attending

To off-roll leavers if they will not be attending your school next academic year, you will need to delete or end their enrollment. Click the student's name to visit their profile.

Click their enrolment in your school.

The screenshot shows a card titled 'Arbor Example School Enrolment'. It contains the text 'Current Enrolment 01 Sep 2018 - ongoing' and 'Joined in: Year 12'. There is a right-pointing arrow icon on the right side of the card.

In the slide over, click the orange **Edit** button. You can then:

- Unenrol the student if they no longer attend by clicking **Unenrol Student**.
- Delete their enrolment completely by clicking **Delete** if the student never attended your school

Note

Whichever method you choose to resolve your missed enrolments, the student should no longer appear in the **Review** section of your **New School Year Setup Step 3** page. You should aim to remove all the students listed in this section.

**If you choose to delete the student’s enrollment, if you added the student as an applicant, they will still be marked as Enrolled in the Applicants section.**

## Make sure your students will be in the right year

To check that all your students have the correct year group for next year, go to **Students > Enrolment**. You will be taken to the **Year Groups** page. Change the academic year using the drop-down menu.

If you have not yet properly completed the setup for the next academic year, you will not see any year groups here. Complete the section above to promote your students into their year groups for next year.

### Students added after completing step 3

If you've already promoted year groups and reg forms, any new students you add on to Arbor won't show up in the 'Tweaks' or Review sections.

Instead, you'll need to go to their Student Profile and add them to the year group and registration form from the Enrolments section. You can see how to do this in [this article](#).

### Can't add students to a year group/registration form?

If you have registration forms with students in more than one year group, you might not be able to select students because you need to link the registration form to both year groups. You can see how to resolve this here: [Mixed year group registration forms](#)

## Nursery registration sessions

If you have a nursery, you will need to schedule registration sessions following different instructions. Because your students may not be attending full time, you will need to schedule registration forms and enrol your nursery students into them differently, depending on whether they attend during the same times every day or not.

**You must follow the instructions in our [Scheduling your Nursery registers guide](#) (you can find this [here](#)) before following the instructions below to schedule your other year groups' registers.**

## Scheduling your registration sessions

For primary schools, we recommend selecting option **A. Schedule Sessions from Registration Forms**.

Please ensure you choose only one setup option for each class. Completing more than one option risks you duplicating courses or lessons.

## Important note about scheduling reception

If you have a Reception you will also need to choose if you will be using regular attendance patterns for your Reception students or not. Using attendance patterns means that your students attend between the same times every day, for example, if your students attend Mon-Fri mornings only.

Some Registration form(s) selected are Reception classes. Please choose below if would like to set up separate course modules per day for these classes.

**We recommend selecting 'no'**, as it is easier to make adjustments if necessary. If you select 'no':

- They will be set up like other year groups.
- All the lessons for the whole week will be scheduled directly against the top-level course for the reception class, without creating all the AM/PM bottom-level courses.
- Students will be automatically enrolled in sessions based on their enrollments into Registration Form groups.

The setup will look something like this:

- Separate modules for each AM and PM session, for every day of the week, will be created and the lessons will be scheduled against those modules automatically.
- Each session will become a bottom-level course with one class time within it.
- You will need to make sure that you have set [attendance patterns](#) for your reception students for them to be automatically enrolled in these classes, and for them to appear on the register.

## Tidying up your registration structure for one-form years

When completing option A (Schedule Sessions from Registration Forms), this automatically created the registration form within a parent course for the year group. This means all of your class names can be quite long and repetitive if you only have one registration form within each year group.

To make your registration class the top-level module to simplify your setup, follow the instructions in [this article](#).

## Adding additional classes

If you have more classes than just the registration groups, you can set up additional classes. Make sure you have these pieces of information ready:

- What you will call the class and the subject name
- What room the class will be in
- Which teachers will be assigned to the class
- When the classes take place

Choose the option to **Setup Courses & Classes** from scratch. A slide-over will appear where you need to enter information about the course/class you are setting up.

You can only select one year group per course you create. Leave the **Year group** field blank to be able to create sub-modules assigned to different year groups.

When all the details are correct, click on the green **Add Course** button.

## Enrolling your students

The next step is to enrol your students into this class, so they will appear on the registers.

We recommend using our bulk enrolment page by going to **Students > Enrolment > Courses > Bulk Enrolment**. You can see how to enrol students into their registers from here following this guide: [Bulk enrol students into lesson registers](#)

## Make sure you have registers for your first day back

### Academic Years

Academic Years		<a href="#">+ Add</a>
2021/2022	01 Sep 2021 - 31 Aug 2022	<a href="#">▶</a>

In the example below, the first day of the term is the 1st. However, as I have put the 1st, 2nd and 3rd as inset days, the first day I need to take attendance is 6th of September.

Holidays (2021/2022)		
Summer	01 Sep 2021 - 03 Sep 2021	Vacation
Autumn half term	25 Oct 2021 - 29 Oct 2021	Half-Term

Next, go to **Students > Attendance > Registers By Date**. Click the calendar icon, and select the first day your registers should exist for, then click **Change Date**.

7th Sep 2020  [Change Date](#)

If you've set up your registrations correctly, they should appear on this page! If they don't, and you're sure you haven't scheduled a holiday on this day, this means you haven't scheduled your timetable to start on the right date or you haven't enrolled students in your Courses and Classes.

# Step 7 - Meals

Meals setup is another optional step. If you don't use Meals in Arbor do not enter any information into this section and click on the green **Mark as Complete** button.

You will see there are 4 parts to setting your Meals up successfully.

1. Copy Meals and Meal Provisions	Incomplete	▶
2. Copy Meal Sitings and Attendees	Incomplete	
3. Copy Meal Prices	Incomplete	
4. Copy Meal Choices	Optional	

## Copy Meals and Meal Provisions

Click on **Copy Meals and Meal Provisions**. A slide over will appear containing a list of the Meals and Meal Provisions for the next year. Tick the ones you would like to copy to next year, and untick the ones that should not be copied. **For any provision that is ticked, the meal it belongs to will automatically be copied over.**

When you are happy you have selected the meals you want to copy over click on the green **Copy** button at the bottom of the slide-over.

### Lunch

- Absent
- Cold Lunch
- Hot Lunch
- Packed Lunch

You can set up meals from this page, either by clicking into the **Make further changes to meals section** if you already have other meals or by clicking to create a meal if you have

not used Meals before. The process to set a meal up through New School Year Setup is similar to the standard process, shown here: [Setting Up Meals](#)

### Need More Changes?

If you need to make more complex changes than can be achieved by copying the setup from 2020/2021, please click below. This will take you to the Meals module where you can make more changes manually.

## Meals

### Setup 2021/2022

No meals exist for 2020/2021, click to create some for 2021/2022

## Copy Meal Sitings and Attendees

Click on step 2. Tick the meal sitings and attendees you would like to copy and untick the ones that should not be copied. **If you do not copy the sitting timetable or at least one sitting attendee group, the sitting itself will not be copied.**

We recommend copying over your attendees to make sure teachers can access the Meal Register for their classes.

### Lunch Sitting

#### Sitting 1

**Copy sitting timetable**  Mon: 12:00 - 12:45, Tue: 12:00 - 12:45, Wed: 12:00 - 12:45, Thu: 12:00 - 12:45 and Fri: 12:00 - 12:45

## Copy Meal Prices

Click on Step 3. Tick the prices you would like to keep and untick the ones you would like to discard. The current price is shown in brackets, but this can be changed later.

**Prices for Provision: Absent**

Absent (£0.00)  All Students

**Prices for Provision: Packed Lunch**

Packed Lunch (£0.00)  All Students

**Prices for Provision: School Packed Lunch**

FSM (£0.00)  Free School Meal

Paid (£2.20)  All Other Students

## Copy Meal Choices

Step 4 is optional and will depend on whether you want meal registers to be pre-filled with student's regular meal choices. If you do, click **Copy Meal Choices**.

### Copy Student Meal Choices

This page lets you copy the regular meal choices for all students from 2020/2021 to 2021/2022.  
Even if you have already copied meal choices once, duplicates (i.e. meal choices with the exact same settings) will not be created.  
Meal choices will only be copied for students enrolled in 2021/2022.

## Why have Meal Choices not copied over?

For meal choices to copy over for students, the meal choice needs to have an end date that is the same as or later than the last day of Summer term for your school.

You'll need to make sure that the Summer Term in your academic calendar lasts until your last good school day, not until the end of the summer holidays. In the example below, meal choices that end on the 30th August would not be copied over.

## Check you'll have meal registers in September

You'll need to make sure you've set up meals correctly to ensure you'll be able to select student's meal choices in the Meal Registers. If you have not yet set your attendees for meals, or you haven't set meal patterns, your meal registers will look like the below.

Lunch			
Meals: Registration: Year 2: Form 20F: Tue, 03 Sep			
There are no results <span style="float: right;">Download ▼</span>			
<input type="checkbox"/>	Student	Meal Choice	Dietary Requirements

# Other things to prepare

## Assessments

If you use assessments in Arbor, you'll need to copy your assessments across to next year. They will not automatically copy over. To see how to do this, follow the instructions in this article: [Copying Assessments to the coming year](#)

## Data Collections

Data Collection Policies are linked to the Assessment policy. Because you need to select the assessments to create or copy over each year, you also need to define your Data Collection Policies each year if you use them at your school. You can see how to add Data Collections [here](#).

## Behaviour

When the new school year begins, you'll need to set up certain areas of behaviour.

Don't worry, you won't need to set everything up. To prepare for September, you'll just need to set up detentions and add your Internal exclusion types. You can see how to do this in this article: Setting up [Behaviour in Arbor](#)

## My Classroom

If your school uses My Classroom, there are certain steps that need to be completed each year for you to be able to use it.

You can use layouts from past years as these are linked to the room, but you will need to set up seating plans each year as there will be different students in your classes. You can see how to do this [here](#).

Because teachers can access My Classroom at any time for their lessons, once you've completed Step 6 of the New School Year Setup process to schedule your classes, your teachers will be able to set up their seating plans before students return in September.

## School Shop

If you use the School Shop on your site, the products will remain active, and available to the students who were in the student groups selected last year. To make the items available to new students, or different student groups, you'll need to add the new students groups, then add prices for them: [School Shop](#)
